

# Diary

**Name: Benson Chan Student ID: 40046280**

**Team PJA**

**10 January 2019**

## Iteration 1

**Date:** Jan 18, 2019

**Activities:** Made Github account

**Date:** Jan 19, 2019

**Activities:** Discovered Yassine dropped class

**Outcomes:** Lost a member

**Date:** Jan 23, 2019

**Activities:** Confirmed meeting today

Everyone was present (I think?) Divided the group among documenters and coders and organisers I was part of documenter Discussed about documenters stuff (divided work).

**Outcomes:** Everyone was assigned their work

**Date:** Jan 31, 2019

**Activities:**

Sent message to colleagues and confirmed meeting today on Jan 30, 2018, by Annes.

Inquired if anything could be done to be more prepared and be productive on the spot.

Was informed to look at the documents on github and documents.

Later that day, change of event has forced me to be unable to attend the meeting on Jan 30, 2019. I notified the team via Slack around 7h33pm.

2:46 AM, Came back home - started to look through the documents.

Corrected several grammar mistakes on Google docs and everyone's part.

Read through the detailed 3rd meeting document and took note of the tasks I need to work on.

Task: work on use cases for the weekend. Next meeting will be on Feb 5, 2018 @ 4PM

**Outcomes:** Revised document on Google docs

**Date:** Feb 2, 2019

**Activities:** Looked at the use case on the monopoly.

Started sample of use case and planned to show it in meeting. **Outcomes:** Started to get work done.

**Date:** Feb 5, 2019

**Activities:** Had meeting with documenters and a few coders.

Saw the demo of the coders.

Spoke of the next step.

Worked on operative use case diagram

**Outcomes:** Use case diagram started

**Date:** Feb 6, 2019

**Activities:** Finished up the operative use case diagram and table.

Announced it on slack.

Posted it on Google docs.

**Outcomes:** Completed operative use case.
