

Diary

Name: Karim Loulou Student ID: 40027203

Team PJ-A

6 february 2019

Iteration 1

Date: january 16th

Start Time: 21:00

End Time: 23:00

Who: whole team

Where: lab h 903

Activities:

- See our team
- understand the project
- look at the requirement
- understand the ability and background of each individual
- see how we will organize the work during the semester

Outcomes:

- we divided the work
- we choose to use javafx for the UI and git for or version control system

Date: january 17th

Start Time: 14:00

End Time: 16:00

Who: karim loulou

Where: home

Activities:

- understand mvc
- understand the idea of the project
- understand the requirement of the project

Outcomes:

- first draft of my software design

Date: january 18th

Start Time: 16:00

End Time: 17:00

Who: karim loulou, Kevin McAllister, Annes Cherid

Where: lab h 903

Activities:

-talk about the design

-see how we will or

-look at the requirement

-understand the ability and background of each individual

-see how we will organize the work during the semester **Outcomes:**

-we divided the work

-we choose to use javafx for the UI and git for or version control system

Date: january 23th

Start Time: 21:00

End Time: 23:00

Who: whole team

Where: home

Activities:

-showed my idea of for the design

-exchange our idea for the design of the software

-understand the requirement of the project

Outcomes:

-we had a clear plan of the design of the project and a blueprint to start coding

Date: january 25th

Start Time: 13:00

End Time: 16:00

Who: karim loulou

Where: home

Activities:

-code my part of the project

-figure how git works

Outcomes:

-complete the part of the model that need to interact with the database and give you and array of card

Date: january 29th

Start Time: 13:00

End Time: 14:00

Who: karim loulou

Where: library

Activities:

-had to create the database because the person in charge have dropped the course and we needed to continue in the project

Outcomes:

-complete the part of the model that need to interact with the database and give you an array of card

Date: january 30th

Start Time: 21:00

End Time: 23:00

Who: whole team

Where: h907

Activities:

-last lab before the first demo

-Made a recap of what need to be completed for next week

Outcomes:

-assign work for each coders to be done for next week

Date: february 4th

Start Time: 19:45

End Time: 20:45

Who: karim loulou, Kevin McAllister

Where: h520

Activities:

-discuss the main issues that we have

-we had problem connecting the model with the controller

-Debuging fez things **Outcomes:**

-fixed the Code that extract information from the database and the part that interact with the control

Date: february 5th

Start Time: 13:00

End Time: 17:00

Who: karim loulou, Kevin McAllister

Where: library

Activities:

-begin the testing for the model part of the code **Outcomes:**

-the Code that extract information from the database and the part that interact with the controller have been tested with junit
